

Lobby

Design: Dag Hjellev, 2019

LK H

Lobby

Whether for small, intimate meetings, big gatherings or everyday life around the dining table, Lobby adapts to your needs. Clever coupling fittings allow the modules to be rearranged, while the arms and backs can be moved to create different configurations. The flexible Lobby system is designed with circularity and sustainability in mind. All components are designed for easy replacement.

Technical information:

Materials and construction:

- Seat in cold-cure polyurethane foam and polyester fibre.
- Sides and back in cold-cure moulded polyurethane foam with an internal steel structure and polyester fibre.
- Frame in wood and plywood.
- Coupling fittings and legs in powder-coated steel, with polypropylene glides.
- Water-based glue. Emission tested.
- Available in a wide range of fabrics. Removable covers.

Measurements:

- Depth without backrest: 63 cm.
