Lobby

Full flex

Whether it's small, intimate meetings, big gatherings or at home by the dining table, Lobby's got you covered. Thanks to clever coupling fittings, both arms and backs can be moved, and the modules can be rearranged to suit your needs.

With removable covers on the seat, back, and armrests, it's a breeze to reupholster. So with Lobby, you're not just getting flexibility, but also a piece that stands the test of time.

Lobby

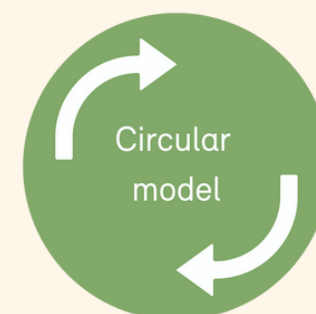

The advantages

Lobby presents a multitude of compelling environmental advantages, embodying a circular model at its core.

The covers can effortlessly be replaced on-site by the customer, ensuring a prolonged lifespan. Due to the smart coupling fittings, the arm and back parts can be moved and the different modules can be switched around.

Furthermore, all components are designed for easy replacement, to enhance the longevity.

LONG LASTING
LOW CARBON FOOTPRINT

Dag Hjelle

As a third generation Hjelle, Dag is armed with precise skills he learned while growing up and working every summer in the factory. “Being part of this family business has taught me a lot about craftsmanship, materials and techniques,” he says.

Dag is always working closely together with our retailers to find out what is in demand and he has a great eye for proportions and details, with a great focus on comfort.
