

The Ada series

By Jonas Stokke

LK HJelle

— Ada

Elegant and comfortable multipurpose chairs

Ada is petite and delicate, but welcomes you with an outstanding comfort with extra focus on lumbar support. This distinctive combination provides the ideal seating solution for long dinners, office environments, or corporate conference rooms.

With a big range of customization options, Ada can be used in any environment. With a selection of four leg choices, two width variations, two height options, and two unique armrest designs, Ada offers great adaptability to suit any setting or purpose.

Ada

The advantages

The Ada series presents a multitude of compelling environmental advantages, embodying a circular model at its core.

The covers can effortlessly be replaced on-site by the customer, ensuring a prolonged lifespan. Furthermore, all components within the Ada series are designed for easy replacement, to enhance the longevity of the chair.

The designer

Jonas R. Stokke believes design is a terrific tool to create value for other human beings, and that there resides a responsibility when bringing new objects and services into the world. How is this creating value, and for whom? To Jonas that is a guiding principle. He is also fascinated by how you can manipulate and combine different materials, and this new object appears, which did not exist before.

The Ada series is his second collaboration with LK Hjelte.
