## Practical elegance

You might spot some familiar design vibes in Mio, reminiscent of our Ami series, also crafted by the talented Takagi/Homstvedt. But Mio? It's got its own groove, blending simple yet clever details that effortlessly enhance any space.

With its lapped steel framework and dual circular plates, Mio nods to modernist architecture with its bold cantilevers. And let's not forget the handy bottom shelf - perfect for stashing away those little bits and pieces!

### Takagi/Homstvedt

While Hallgeir Homstvedt and Jonah Takagi have been friends for years, their first collaboration as designers came in 2016 as part of an exhibition curated by the influential design blog Sight Unseen and sponsored by the Embassy of Norway. To date they have designed and developed products for a range of international brands that include Roll & Hill, Le Klint and Design Within Reach, and now LK Hjelle with their AMI series and Mio table.
