

Less

Design: Lars Tornøe, 2024

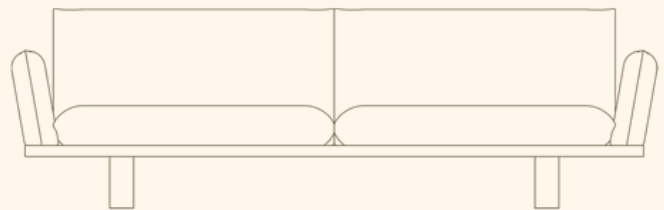

LK H

Less

Less has a sturdy wooden base and relaxed cushions, combining functionality with a laid-back expression.

Circular design principles.

Less is built to last, be repaired and renewed. We've skipped the glue and staples to keep things clean and simple. The covers are removable for easy cleaning and maintenance. Every component is designed for easy replacement at home, and the sofa is delivered flat-packed for easy transportation.
